PS-1

I am	I'm trying to	But	Because	Which makes me feel
an employee or team requesting a network service	submit a complete request quickly and track its status	request channels may be unclear and required details may be missing	there is no single standardized and automated network-request process	frustrated by delays and uncertain progress

PS-2

I am	I'm trying to	But	Because	Which makes me feel
a network fulfilment team member	receive complete, approved requests and execute them accurately	requests may have missing data and require manual routing or follow-up	approvals, task creation and assignment are not consistently automated	concerned about rework, errors and administrative workload
